

# VG Connect™ Service

## EQUIPMENT AND SUBSCRIPTION PLANS

Video Guidance's VG Connect is a comprehensive hosted and managed video communication service. Your chosen video endpoints are installed and connected directly to the VG Connect video platform, ensuring an end-to-end managed solution to easily dial and connect to any standards-based video user. Choose from an array of PC-based, desktop or room systems with a monthly subscription plan and you have taken the first step in getting ready to make video calls.
